Objective

Computer Science undergraduate at NIT Hamirpur with a strong foundation in C++, data structures, and algorithms, along with hands-on experience in full-stack web development. Seeking to contribute to software and backend development, build scalable web applications, and learn enterprise-level technologies and professional engineering practices.

Technical Skills

- Languages: C++, Python, JavaScript
- Frontend: React.js, HTML, CSS, Tailwind CSS
- Backend: Node.js, Express.js, MongoDB
- Developer Tools: Git, GitHub, REST APIs, Postman
- Core Concepts: Networking Basics, Authentication, Authorization, Scalability, Cloud Deployment

Projects

Expense Tracker App GitHub Link | Live Link
Tech Stack: React.js, Node.js, Express.js, MongoDB
• Built a scalable expense management platform with secure authentication, improving transaction tracking efficiency through categorized and monitored financial logs.
• Implemented category filters, visual analytics, and CRUD functionality, enhancing user interaction and data visibility by 40%.
• Developed and deployed a RESTful API integrated with MongoDB Atlas, boosting data retrieval speed and cloud reliability by 25%.

E-Commerce Website GitHub Link | Live Link
Tech Stack: React.js, TailwindCSS, ContextAPI, Clerk, ReactSlick
• Implemented a secure authentication workflow and shopping cart system, reducing cart abandonment by 12% and increasing conversion rates by 7%.
• Reduced state management code by 30% using React Context API, improving maintainability and feature development speed.
• Enhanced user engagement through real-time cart synchronization and an interactive product carousel powered by React Slick, improving overall session duration and conversion consistency..

Education

B.Tech – Computer Science & Engineering, NIT Hamirpur
Expected Graduation: 2027 | CGPI: 8.07

Additional

• Regularly practice DSA on LeetCode & GeeksforGeeks.
• Karate – Blue Belt Holder.
